PART I. GENERAL

1.1 INTENT TO AWARD WITHOUT DISCUSSIONS

The Government intends to evaluate all proposals received and award a contract without conducting discussions; therefore, the initial proposal shall conform to the solicitation requirements and should contain the best offer from a technical and price perspective.

1.2 COMPETITIVE RANGE

If discussions are deemed necessary to maximize the Government’s ability to obtain the best value, discussions will be held with those Offerors in the competitive range. The Government may limit the number of proposals in the competitive range to the most highly rated proposals, considering price and technical merit.

1.3 ENFORCEABILITY OF THE PROPOSAL

The proposal must set forth full, accurate and complete information as required by this solicitation. The Government will rely on such information in the award of a contract. By submission of the offer, the Offeror agrees that all items proposed will be utilized for the duration of the contract and any substitutions will be equal or better than as proposed and accepted for contract award and shall require prior Contracting Officer’s approval.

1.4 PREFERENCE FOR MULTIPLE AWARDS

A MACC is a contract awarded from a single solicitation and may result in award to multiple contractors. This procurement consists of one solicitation with the intent to award approximately five (5) Indefinite Delivery/Indefinite Quantity (IDIQ) contracts to the offerors whose proposals, conforming to the solicitation, represent the best value – the proposals most advantageous to the Government, price and other factors considered. Successful offerors will compete for future work during the term of the contract.

PART II. EVALUATION FACTORS/RATING SCHEME

2.1 EVALUATION CRITERIA AND BASIS OF AWARD

The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contracts; to negotiate with offerors in the competitive range; and to award the contracts to the offerors submitting the proposals determined to represent the best value—the proposals most advantageous to the Government, price and other factors considered.

The Government intends to evaluate proposals and award contracts without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

The trade-off process is selected as appropriate for this acquisition. The Government considers it to be in its best interest to allow consideration of award to other than the lowest priced offeror or other than the highest technically rated offeror.

The contracts resulting from this solicitation will be awarded to those responsible offerors whose offers, conforming to the solicitation, are determined to be the most advantageous to the Government considering “Price” and “Non-
Price” evaluation factors. Award may be made to other than the lowest priced offerors or other than the highest technically rated offerors. The Non-Price evaluation factors are:

Factor 1 – Technical Approach
Factor 2 – Experience
Factor 3 – Past Performance
Factor 4 – Safety
Factor 5 – Technical Solution

Non-Price Factors 1 – 3 will be evaluated in Phase I. Factor 1 will be rated Acceptable or Unacceptable. If an offeror is rated Unacceptable in Factor 1, then they will not be considered for Phase II. Non-Price Factors 4 and 5 will be evaluated in Phase II. In making the best value award decision after Phase II, the Government will consider Non-Price Factors 2 – 5 and Price. The relative order of importance of the Non-Price evaluation factors is that Technical Factors 2, 4, and 5 are equal to each other and when combined are of equal importance to the performance confidence assessment (Factor 3 – Past Performance). The combined Non-Price evaluation factors are approximately equal to price. In determining the best value to the Government, the Government need not quantify the trade-offs that led to the best value decision.

Any proposal found to have a deficiency in meeting the stated solicitation requirements or performance objectives will be considered ineligible for award, unless the deficiency is corrected through discussions. Proposals may be found to have either a significant weakness or multiple weaknesses that impact either the individual factor rating or the overall rating for the proposal.

2.2 EVALUATION FACTORS FOR AWARD

This Two-Phase Design-Build (D-B) procurement will result in the award of approximately five (5) Indefinite Delivery/Indefinite Quantity (IDIQ) type contracts under a Multiple Award Construction Contract (MACC) for a one-year base period with provisions for the exercise of four one-year option periods.

For this Two-Phase D-B procurement, Factors 1-3 will be evaluated in Phase I. Factor 1 will only be rated Acceptable or Unacceptable. If an Offeror is rated Unacceptable in Factor 1, then they will not be considered for Phase II. Factors 4 – 5 will be evaluated in Phase II.

Phase I of the solicitation is a narrowing process of offerors based on responsiveness and evaluation of non-price technical factor submittals. Based on the Phase I evaluation criteria, approximately ten (10) of the most highly rated offerors will proceed to Phase II. The Government however reserves the right to select less than or more than ten (10) offerors to proceed to Phase II, should it be deemed to be in the best interest of the Government to do so. Phase II offerors will be required to submit both a Price Proposal and Non-Price Proposal.

The relative order of importance of the Non-Price evaluation factors is that Technical Factors – Factor 2 – Experience, Factor 4 – Safety, and Factor 5 – Technical Solution – are of equal importance to each other and, when combined are equal in importance to the past performance evaluation/performance confidence assessment factor, Factor 3 – Past Performance. Factor 1 – Technical Approach will be rated Acceptable or Unacceptable. When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (i.e., the Non-Price Evaluation Factors) are approximately equal to Price.

Phase I Non-Price Factors:

Factor 1 – Technical Approach
Factor 2 – Experience
Factor 3 – Past Performance

All ratings from Phase I will be carried into Phase II unless new or revised information is provided.
Phase II Non-Price Factors:

Factor 4 – Safety
Factor 5 – Technical Solution

The distinction between the Experience factor and the Past Performance factor is that experience pertains to the types of work and volume of work completed by a contractor that are comparable to the types of work covered by this requirement, in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

Factor 1 – Technical Approach

(a) Solicitation Submittal Requirements:

The composition and management of the firms proposed as the Design-Build (D-B) Team for this contract will be evaluated in this factor.

The Offeror shall submit the following information:

(1) Provide a narrative describing the proposed primary construction firms and primary design firms for this contract and the rationale for proposing this arrangement. Provide the role, responsibilities, and contractual relationships between the various firms (see FAR Subpart 9.6). The offeror shall also include an organizational chart that clearly identifies the lines of authority between the entities. The organizational chart shall include key personnel and entities having significant roles in the proposal. The organization chart shall clearly show leadership responsibility of each key personnel or entity shown. If the experience of an entity is being claimed in Factor 2, that entity must be named in the above narrative and shown on the organizational chart.

The technical approach narrative shall be limited to two (2) pages, with an additional page allowed that contains only the organizational chart. Pages in excess of the limit will not be evaluated. The information requested in item #2 below is not included in this page limitation. Font size shall be a minimum of 12.

(2) In addition to the narrative, the Offeror shall submit a signed copy of a joint venture agreement, partnership agreement, teaming agreement, approved mentor protégé agreement (MPA), or letter of commitment for each member of the Offeror’s team identified above (e.g., joint venture member, partner, team member, subcontractor, parent company, subsidiary, or other affiliated company, etc.) in English.

(b) Basis of Evaluation for Factor 1:

The Offeror’s proposal will be rated on whether or not the criteria specified under the Solicitation Submittal requirements, above, has been included. This factor will be rated on an Acceptable or Unacceptable basis.

Factor 2 – Experience

(a) Solicitation Submittal Requirements:

The Offeror shall submit the following information:

(1) Construction Experience:

Submit a minimum of one (1) and a maximum of five (5) relevant construction projects for the Offeror that best demonstrates your experience on relevant projects that are similar in size, scope, and complexity to the RFP. The
Government will only review up to five projects for construction and five additional projects for design. Any projects submitted in excess of the five (5) for Construction Experience will not be considered.

For purposes of this evaluation, a relevant project is further defined as:

1. Construction of buildings (or) Renovation work. Renovation work will be considered relevant if the renovation works includes all of the following work types: architectural, mechanical and electrical; and
2. Demonstrate a similarity in magnitude with a value of at least $100,000; and
3. Performed in Djibouti within the last 5 years at the date of issuance of this RFP; and
4. Must be at least 70% complete at the date of issuance of this RFP.

A project is defined as a construction project performed under a single task order or contract. For multiple award and indefinite delivery/indefinite quantity (IDIQ) type contracts, the contract as a whole shall not be submitted as a project; rather Offerors shall submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment D) is MANDATORY and SHALL be used to submit project information. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed two (2) pages. Pages in excess of the limit will not be evaluated. Font size shall be a minimum of 12.

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this solicitation (i.e.: unique features, location, construction methods, and construction start and end duration for establishing the Contractor’s ability to perform multiple, concurrent, projects). In addition, the description should also address any sustainable features for the project (if applicable), including specific descriptions of those features. Provide applicable documentation for projects that were validated and/or certified through U.S. Green Building Council (USGBC) or the equivalent organization or process.

If the Offeror is a Joint Venture (JV), relevant project experience should be submitted for projects completed by the Joint Venture entity. If the Joint Venture does not have shared experience, projects may be submitted separately for each Joint Venture members. Offerors who fail to submit experience for all proposed Joint Venture members will be rated lower. Offerors are still limited to a total of five (5) projects combined.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract.

The Offeror may utilize experience of a subcontractor that will perform major or critical aspects of the requirement in order to demonstrate construction experience under this evaluation factor. If the experience of a subcontractor is used to demonstrate construction experience, the Offer must provide a letter of commitment and an explanation of the meaningful involvement that the subcontractor will have in performance of this contract.

(2) Design Experience

Submit a minimum of one (1) and a maximum of five (5) relevant design projects for the design team that best demonstrates design experience on relevant projects that are similar in size, scope, and complexity to the RFP. Any projects submitted in excess of the five (5) for Design Experience will not be considered.

For purposes of this evaluation, a relevant project is further defined as:

1. Construction of buildings (or) Renovation work. Renovation work will be considered relevant if the renovation works includes all of the following work types: architectural, mechanical and electrical; and
2. Demonstrate a similarity in magnitude with a value of at least $100,000; and
3. Performed in Djibouti within the last 5 years at the date of issuance of this RFP; and
4. Must be at least 70% complete at the date of issuance of this RFP.

A project is defined as a complete design effort performed under a single task order or contract/subcontract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; rather Offerors shall submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment D) is MANDATORY and SHALL be used to submit project information. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed two (2) pages. Pages in excess of the limit will not be evaluated. Font size shall be a minimum of 12.

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this solicitation (i.e.: unique features, location, whether the project was Design-Build or Design-Bid-Build, whether it was performed in conjunction with the proposed Offeror). In addition, the description should also address any sustainable features for the project (if applicable), including specific descriptions of those features. Provide applicable documentation for projects that were validated and/or certified through U.S. Green Building Council (USGBC) or the equivalent organization or process.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract.

The Offeror may utilize experience of a design subcontractor to demonstrate design experience under this evaluation factor. If the experience of a design subcontractor is used to demonstrate design experience, the Offeror must provide a supporting joint venture agreement, partnership agreement, teaming agreement, or letter of commitment and an explanation of the meaningful involvement for the design subcontractor.

(b) Basis of Evaluation for Factor 2:

The basis of evaluation will include the Offeror’s demonstrated breadth and depth of experience in performing relevant construction and design projects as defined in the solicitation submittal requirements. The assessment of the Offeror’s relevant experience will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the solicitation. The Government will only review up to five projects for construction and five for design. Any projects submitted in excess of the five (5) for Construction Experience and five (5) for Design Experience will not be considered.

Relevant projects where the offeror and the proposed design firm(s) have previously worked together may be considered more favorably than those that have not worked together.

Relevant projects that demonstrate design-build experience may be considered more favorably than those that do not have design-build experience.

Relevant projects that demonstrate experience with sustainable features may be considered more favorably than those that do not demonstrate experience with sustainable features.
**Factor 3 – Past Performance**

(a) Solicitation Submittal Requirements:

If a completed Construction Contractor Appraisal Support System (CCASS) evaluation is available, it shall be submitted with the proposal for each project included in Factor 2 for construction experience. If a completed A-E Contractor Appraisal Support System (ACASS) evaluation is available, it shall be submitted with the proposal for each project included in Factor 2 for design experience. If there is not a completed CCASS or ACASS evaluation then submit Past Performance Questionnaires (Attachment C) for each project included in Factor 2 for both Construction Experience and Design Experience. The Offeror should provide completed Past Performance Questionnaires (PPQ) in the proposal. Offerors shall not incorporate by reference into their proposal PPQs previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation. If the Offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the Offeror shall complete and submit with the proposal the first page of the PPQ, which will provide contract and client information for the respective project(s). The Government may make reasonable attempts to contact the client noted for that project(s) to obtain the PPQ information. However, Offerors should follow-up with clients/references to help ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government’s point of contact, Karoline Duffy at karoline.duffy@eu.navy.mil.

Offerors may provide any information on problems encountered and the corrective actions taken on projects submitted under Factor 2 – Experience. Offerors may also address any adverse past performance issues. Explanations shall not exceed four pages in total.

The Government reserves the right to contact references for verification or additional information. The Government’s inability to contact any of the Offeror’s references or the references unwillingness to provide the information requested may affect the Government’s evaluation of this factor.

Performance award or additional information submitted will not be considered.

(b) Basis of Evaluation for Factor 3:

This evaluation focuses on how well the Offeror performed on the relevant projects submitted under Factor 2 – Experience and past performance on other projects currently documented in known sources. More emphasis will be placed on more relevant projects. In addition to the above, the Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using all CAGE/DUNS numbers of Contractors who are part of a partnership or joint venture identified in the Offeror’s proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the Offeror.

The Government will consider the currency and relevance of the information, the source of the information, context of the data, and general trends in the Contractor’s performance. This evaluation is separate and distinct from the Contracting Officer’s responsibility determination. The assessment of the Offeror’s past performance will be used as a means of evaluating the Offeror’s probability to successfully meet the requirements of the RFP.

Offerors lacking relevant past performance history will not be evaluated favorably or unfavorably in past performance and will receive an Unknown Confidence rating.

Designated country construction material means a construction material that is a WTO GPA country construction material, a Free Trade Agreement country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

(ii) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) This clause implements the Balance of Payments Program by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA and Free Trade Agreements apply to this acquisition. Therefore, the Balance of Payments Program restrictions are waived for designated country construction materials.

(c) The Contractor shall use only domestic or designated country construction material in performing this contract, except for--

(b) The Contractor's invoice shall list separately the gross price, amount of tax deducted, and net price charged.

(c) When items manufactured to United States Government specifications are being acquired, the Contractor shall identify the materials or components intended to be imported in order to ensure that relief from import duties is obtained. If the Contractor intends to use imported products from inventories on hand, the price of which includes a factor for import duties, the Contractor shall ensure the United States Government's exemption from these taxes. The Contractor may obtain a refund of the import duties from its government or request the duty-free import of an amount of supplies or components corresponding to that used from inventory for this contract.

All such actions must be formalized by a proper contractual document executed by an appointed Contracting Officer. The Contractor is hereby put on notice that in the event a Government employee other than the Contracting Officer directs a change in the work to be performed, it is the Contractor’s responsibility to make inquiry of the Contracting Officer before making the deviation. Payments will not be made without being authorized by an appointed Contracting Officer with the legal authority to bind the Government.

5252.209-9300 ORGANIZATIONAL CONFLICTS OF INTEREST (JUN 1994)

(a) The restrictions described herein shall apply to the Contractor and its affiliates, consultants and subcontracts under this contract. If the Contractor under this contract prepares or assists in preparing a statement of work, specifications and plans, the Contractor and its affiliates shall be ineligible to bid or participate, in any capacity, in any contractual effort which is based on such statement of work or specifications and plans as a prime contractor, subcontractor, consultant or in any similar capacity. The Contractor shall not incorporate its products or services in such statement of work or specification unless so directed in writing by the Contracting Officer, in which case the restriction shall not apply. This contract shall include this clause in its subcontractor's or consultants' agreements concerning the performance of this contract.

5252.216-9316 Undefinitized Task/Delivery Orders. As prescribed in 16.506-100(k), insert a clause substantially the same as the following:

UNDEFINITIZED TASK/DELIVERY ORDERS (OCT 2007)

(a) Prior to the issuance of a task/delivery order under this contract, it is anticipated that the government and the contractor will reach agreement on the price or total cost and fee (if applicable) for the services to be provided under the order. The Contracting Officer may authorize commencement of work prior to final agreement on cost or price. In such case, the contractor shall immediately commence performance of the services specified in the order and shall submit a pricing proposal within 15 days of receipt of the order. Upon completion of negotiations, the final negotiated cost or price will be set forth in a supplemental agreement that is executed by the contractor and the Contracting Officer. Failure to agree upon the cost or price shall be considered a dispute subject to the Disputes clause of this contract.

(b) Undefinitized task/delivery orders shall indicate a "not to exceed" amount for the order; however, such amount shall not exceed 50 percent of the estimated cost of the order. The order shall only require the Contracting Officer's signature, but shall also comply with all other order requirements. Undefinitized task/delivery orders shall indicate the date by which the government anticipates that the cost or price of the order will be definitized.

5252.236-9301 SPECIAL WORKING CONDITIONS AND ENTRY TO WORK AREA (OCT 2004)

The Government under certain circumstances may require denial of entry to the work areas under this contract where the Contractor's work or presence would constitute a safety or security hazard to ordnance storage or handling operations. Restrictions covering entry to and availability of the work areas are as follows:

(a) Entry. Entry to work areas located within the special Security Limited areas, defined as those work areas located within the existing security fence, can be granted subject to special personnel requirements as specified herein and to other normal security and safety requirements. Complete denial of entry to the Limited Area may be required during brief periods of one to two hours (normally) and on rare occasions of two to four hours. For bidding purposes, the Contractor shall assume denial of entry to the work areas in the Limited Area of six 2-hour denials and one 4-hour denial per month.
(b) **Vehicle Delay.** The Contractor shall also assume for bidding purposes that, in addition to site denial, each vehicle and/or unit of construction equipment will be delayed during each movement through the security gate, both entering and leaving the limited area. Delays will average ________.

(c) **Operational Considerations.** To reduce delay time while preserving required security, the following points should be considered in operational planning:

(1) **Vehicle Search.** Security regulations required that all vehicles, when authorized to enter the Limited Area be thoroughly searched by guard force personnel. Such a search will be required for all vehicle/construction equipment. Accordingly, once a vehicle or unit of construction equipment has been cleared, it may be left in the Limited Area after initial entry has been made. For the period of time authorized the vehicle/equipment left in the Limited Area will be assigned parking areas by the Contracting Officer. The vehicle/equipment must be secured as specified in paragraph entitled "SECURITY REQUIREMENTS." The intent is to reduce the Contractor loss of time at the security gate. No private vehicles will be allowed to enter the Limited Area.

(2) **Delivery Vehicles.** Guard force personnel will inspect vehicles delivering construction materials while the driver is being processed for entry into the Limited Area. A Security Escort will then escort the driver and vehicle in the Limited Area. To provide this service, delivery schedules should be promulgated in advance and vendors made aware that a reasonable delay can be expected if delivery is other than the time specified. Deliveries after 1600 hours will not be allowed entry into the Limited Area without prior approval of the Physical Security Officer.

(End of clause)

These drawings shall be available for review by the Contracting Officer at all times. Upon completion of the work, both sets of the marked up prints shall be certified as correct, signed by the Contractor, and delivered to the Contracting Officer for his approval before acceptance. The term "Government-owned property" as used in this clause refers to such work in place and to such other property as to which title has vested in the Government and includes any property furnished or rented to the Contractor by the Government. Upon completion of the work, any such Government-owned property not a part of the work (except property rented to, or furnished without charge to the Contractor by the Government) shall become the property of the Contractor. The vesting of title in the Government, as provided in this paragraph, shall in no way relieve the Contractor of any obligations otherwise provided in this contract in respect to such Government-owned property except as expressly stated in paragraph (b) of this clause.

(b) The Contractor represents that the contract price does not include the cost of insurance, nor any provision for a reserve, covering the risk assumed by the Government under this paragraph.

The Government assumes the risk of loss or damage to such Government-owned property (including expenses incidental to such loss or damage) which results directly or indirectly from the explosion of Government-owned or controlled munitions (including, without limitations, ammunition, bombs, powder, dynamite and other explosives), whether or not caused by negligence, except that the Government does not assume at any time the risk of, and the Contractor shall be responsible for, such loss or damage (1) which is in fact covered by insurance or for which Contractor is otherwise reimbursed, or (2) which results from disregard of proper instructions of the Contracting Officer, on the part of any of the Contractor's directors, officers or any other representatives having supervision or direction of all or substantially all the Contractor's operations under this contract.

(c) In the event of loss or damage to Government-owned property resulting from the risk assumed by the Government hereunder, the Contracting Officer shall determine whether, and to what extent, such property shall be rebuilt, repaired or replaced by the Contractor or otherwise. Should this determination cause an increase or decrease in the cost of doing the work under this contract or time required for its performance, an equitable adjustment shall be made as provided in the changes clause of the contract.

(d) The provisions contained in the statement of work under "Permits and Responsibilities," are to be deemed modified by this clause only to the extent required to give effect to the limited assumption of risk provided in this clause.
1. General Overview of a Multiple Award Construction Contract (MACC)
A MACC is a contract awarded from a single solicitation and may result in award to multiple contractors. This procurement consists of one solicitation with the intent to award approximately five (5) Indefinite Delivery/Indefinite Quantity (IDIQ) contracts to the offerors whose proposals, conforming to the solicitation; represent the best value – the proposals most advantageous to the Government, price and non-price factors considered.

2. Contract Type
This is an IDIQ contract with no pre-established fixed contract prices. The actual amount of work to be performed and the time of such performance will be determined by the Contracting Officer or his properly authorized representative who will issue written task orders to the contractor. Award of task orders will be on a firm fixed price basis.

3. Contract Content
The contract includes the solicitation in its entirety, including all amendments issued during the proposal preparation period, evaluation, and selection, and the successful offerors’ accepted proposals. The contract constitutes and defines the entire agreement between the contractor and the Government. No documentation shall be omitted which in any way bears upon the terms of that agreement. Acceptance of the proposal documents in making the contract award shall not be construed as a waiver of any solicitation requirements.

Clauses specific to each task order that require fill-in or emphasis are provided with each Task Order RFP. All other terms and conditions identified in the basic contract are in full force by reference in the task order.

4. Description of Work
Indefinite Delivery/Indefinite Quantity (IDIQ) Multiple Award Construction Contract (MACC) for new construction, renovation or repair, and demolition of Administration Buildings, Community Buildings, Recreational Facilities, Containerized Living Units (CLUs), and other Infrastructure (utility installation) located at Camp Lemonier and at various locations throughout Djibouti.

The only work authorized under this contract is that which is ordered by the Government through issuance of a task order. The Government makes no representation as to the number of task orders or actual amount of work to be ordered during the performance period of the contract. The minimum guarantee for each offeror awarded a contract is $1,000.

8. Commencement of Work
No work under this contract will commence until such time as the Contracting Officer issues a task order, either in writing or orally. Oral task orders will be confirmed by the issuance of a written task order within five working days.

SECTION 00802

TASK ORDER ISSUANCE PROCEDURES

If multiple contracts result from this procurement, procedures for issuing task orders are stated as follows:

1. General

(a) Each basic contract award made as a result of this solicitation will cite a unique contract number. Individual Task Orders placed under each basic contract will be numbered sequentially, beginning with Task Order 0001.

(b) Orders will be placed on a DD Form 1155, Order for Supplies or Services

(c) The Government will not be obligated to reimburse the contractor for work performed or any costs incurred, nor shall the contractor be obligated to perform or otherwise incur costs except as authorized by executed task orders.

(d) Task orders will be firm fixed price and clearly define the statement of work to be performed or the performance desired. Each task order will contain applicable clauses and provisions and the specification package required for that project.

(e) Evaluation methods for MACC task orders will be delineated in the respective task order Request for Proposals (RFPs). Task order evaluation methods may include Price, Low Price Technically Acceptable (LPTA), or Tradeoff.

(f) Task Order projects may be non-complex performance-oriented tasks requiring minimal design, may be complex construction requiring design development for design-build construction, or a combination thereof.

(g) Contract awardees are required to submit a proposal for all Task Order Requests for Proposal (RFP) received from the Government. However, in the event a MACC awardee is unable to submit a proposal on a particular RFP, the contractor is required to notify the Contracting Officer in writing within five (5) working days from receipt of the RFP.

(h) Clauses specific to each task order that require fill-in or emphasis are provided with each task order RFP. All other terms and conditions identified in the basic contract are in full force by reference.

2. Competition

(a) Competition for task orders is limited to those awardees under this contract. All awardees will be given a fair opportunity to be considered for each task order. Upon determining the need to issue a task order, all awardees will be considered equally against the stated criteria.

(b) Unless the Contracting Officer applies the exceptions noted below, each task order will be awarded, as a result of competition. The Contracting Officer’s decision as to the selection for award of a task order can not be protested unless the protest is on the grounds that the order increases the scope, period, or maximum value of the contract.

(c) Each contractor shall be given a fair opportunity to be considered for award of a task order. The Contracting Officer reserves the right to make award of a task order without competition based upon:

   I. One of the circumstances described below:
      i. The agency need for the supplies or services are so urgent that providing a fair opportunity would result in unacceptable delays;
      ii. Only one awardee is capable of providing the supplies or services required at the level of quality required because the supplies or services ordered are unique or highly specialized;
iii. The order must be issued on a sole-source basis in the interest of economy and efficiency as a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity to be considered for the original order; or
iv. It is necessary to place an order to satisfy a minimum guarantee; or

II. A statute expressly authorizes or requires that the purchase be made from a specific source.

Note: (1) Approval thresholds for limiting competition for task orders under multiple award contracts are prescribed at NFAS 6.304-100(b).

3. Preparation of Offers

(a) Offerors are expected to participate in site visits, read and understand the statement of work, drawings, specifications, schedule, and all instructions. Failure to do so will be at the offeror’s risk.

(b) Each offeror shall furnish the information required by the Task Order RFP. The offeror shall sign the offer and print or type its name on the Schedule and each continuation sheet on which it makes an entry. The person signing the offeror must initial erasures or other changes. Offers signed by an agent shall be accompanied by evidence of that agent’s authority, unless that evidence has been previously furnished to the issuing office.
